STIC EIC 2100 Search Request Form

Today's Date:

6/24/05

What date would you like to use to limit the search?

Priority Date: 11/27/2001

Other: —

Name Kamal Dwecha

AU 2151 Examiner # 80631

Room # 4B49 Phone X 5863

Serial # 09/993906

Format for Search Results (Circle One):

PAPER DISK EMAIL

Where have you searched so far?

USP DWPI EPO JPO ACM IBM TDB

IEEE INSPEC SPI Other USPC PUB

Is this a "Fast & Focused" Search Request? (Circle One) YES NO

A "Fast & Focused" Search is completed in 2-3 hours (maximum). The search must be on a very specific topic and meet certain criteria. The criteria are posted in EIC2100 and on the EIC2100 NPL Web Page at <http://ptoweb/patents/stic/stic-tc2100.htm>.

What is the topic, novelty, motivation, utility, or other specific details defining the desired focus of this search? Please include the concepts, synonyms, keywords, acronyms, definitions, strategies, and anything else that helps to describe the topic. Please attach a copy of the abstract, background, brief summary, pertinent claims and any citations of relevant art you have found.

(Pop-up blocker).

→ Distributing a window-blocking computer program or

a computer program (software) to a user.

- Steps involved in distributing process.

• install a partially disable program (Inactive) or ^{sample} ^{specimen} ^{sample} ^{trial} ^{demo} ~~for~~ test version of program, which will show or indicate user the usefulness of the program.

• offer the same program to user after testing and installation.

• Activating or providing the full version of the program to user if user accepts the offer.

Title: Software you can try before you buy

Journal: Software Economics Letter vol.3, no.8 p.6-7

Publication Date: Aug. 1994 Country of Publication: USA

CODEN: SECL3 ISSN: 1065-6146

Language: English Document Type: Journal Paper (JP)

Treatment: Economic aspects (E); Practical (P)

Abstract: Until a **program** is loaded onto a personal computer, it is difficult to determine if it is what the user really needs. This has changed, however. There is now a new method which utilizes CD-ROM technology to load up to 100 different applications on a CD. CD-ROM users can view and operate a fully-working version of each software program on the CD for a trial period set by the software publisher. Following the trial period, users will be able to purchase the software by simply calling the CD vendor, who provides an enabling code that generates a product ID number and fully enables the product. Users can then **install** the **software** on their computers for immediate use. (0 Refs)

CD-ROM puts a spin on software distribution

Pickering, Wendy;

Datamation v. 40 (Feb. 15 '94) p. 61-2

DOCUMENT TYPE: Feature Article ISSN: 0011-6963

ABSTRACT: New CD-ROM **software distribution** systems for the local area network are making it easier for information systems (IS) managers to manage software assets, add a license, or test drive new applications. IS managers will be able to **distribute software** from a single CD-ROM server and will have the capability to activate a license with a phone call or email message to the corporate **software distributor**. End users will be able to **try** software before **buying** thanks to some prepackaged demo code that ships with the **distribution** CDs. Leading PC **software distributor** Softbank plans to have a corporate networked version of its CD-ROM-based PC **software distribution** product out by late spring. Meanwhile, IBM is making a major move into CD-ROM distribution services.
